The notions of word and word meaning are problematic to pin down, and this is reflected in the difficulties one encounters in defining the basic terminology of lexical semantics. In part, this depends on the fact that the words 'word' and 'meaning' themselves have multiple meanings, depending on the context and the purpose they are used for (Matthews 1991). <https://plato.stanford.edu/entries/word-meaning/> Statistical learning in language acquisition - Wikipedia Lexical Acquisition. The role of statistical learning in language acquisition has been particularly well documented in the area of lexical acquisition. One important contribution to infants' understanding of segmenting words from a continuous stream of speech is their ability to recognize statistical regularities of the speech heard in their environments. Embodied cognition - Wikipedia Embodied cognition is the theory that many features of cognition, whether human or otherwise, are shaped by aspects of the entire body of the organism. The features of cognition include high level mental constructs (such as concepts and categories) and performance on various cognitive tasks (such as reasoning or judgment). The aspects of the body include the motor system, the perceptual system ... 4 How Children Learn | How People Learn: Brain, Mind ... *Read chapter 4 How Children Learn: First released in the Spring of 1999, How People Learn has been expanded to show how the theories and insights from the...
