[EPUB] [EBOOKS] Language Processing In Bilinguals Psycholinguistic And Neuropsychological Perspectives

PDF Wed, 12 Sep 2018 14:15:00 GMT Critical period hypothesis - Wikipedia A bilingual person can traditionally be defined as an individual who uses (understands and produces) two (or more) languages on a regular basis. A bilingual person's initial exposure to both languages may have started in early childhood, e.g. before age 3, but exposure may also begin later in life. While some people assume that bilinguals must be equally proficient in their languages ...
